

WE ARE *CHAMPIONS*

GOLD STANDARD FOR HEALTH

As a leader in our community, Sun Health has set the gold standard for health and wellness for more than 50 years. Our communities, residents and team members rely on us to keep them safe and healthy. This includes leading the way in compliance with mandatory vaccinations.

FLU VACCINE

Today, the torch of wellness is being passed to you and we're making it easy to be a champion! We are providing FREE flu shots at three locations. You will need to be vaccinated or submit an exemption form by October 1. Or, provide evidence you received a recent flu shot from another source.

COVID-19 VACCINE

Additionally, all team members are required to get their first dose of the COVID-19 vaccine or be granted an exemption by October 1 as a condition of employment at Sun Health.

Sun Health's medical director, Dr. Lakshmipathy, per the Centers for Disease Control and Prevention (CDC), confirms individuals can receive a COVID-19 vaccine and a flu vaccine at the same time. For those who prefer to get one vaccine at a time, Dr. L recommends spacing them out by 2 weeks. If you have any questions or concerns, please reach out to your supervisor.

FLU SHOT CLINICS

THE COLONNADE

Monday, September 13

Wednesday, October 13
